Overview

East Carroll Parish Virtual Instructional Program through the Carroll Academy will offer high quality, individualized education, through approved digital platforms to students in P-K through 12th grade. This virtual environment promotes the development of skills, attitudes, and self-discipline necessary to achieve success in the 21st century. While engaged in online learning through TCA, students are expected to assume an increasing responsibility in their own learning.

Student learning in TCA will be both synchronous (students are face-to-face with the teacher and other students via Google Meet) and asynchronous (students are working independently to preview material through videos or other digital resources, to complete assignments, to complete assessments, etc.). The total time spent in both synchronous and asynchronous learning will be comparable to a face-to-face school day. Student learning in the TCA will mirror the course and content standards for student learning in the face-to-face school setting.

This handbook gives general guidance for parents and students enrolled in the East Carroll Parish Schools Virtual Academy. The Virtual Academy is a program and is subject to the rules and regulations of the Louisiana Department of Education and East Carroll Parish Schools. East Carroll Parish Virtual Academy follows East Carroll Parish Schools' calendar for beginning dates, tests dates, and holidays.

TCA learning allows students to earn transferable credits, take recognized examinations, or advance to the next level of education.

Additionally, the rules and regulations that have been established for TCA will apply to any occasion where the ECPS District is required to offer instruction virtually.

This Handbook is a living document and as new data is provided changes will occur.

Parent Expectations

Adhere to the guidelines in the parent/student contract. (www.ecarrollschools.org)

- A healthy working relationship between the student/parent and the assigned teacher is essential. Parent/ is required to participate in conferences and class meetings with their students' teachers.
- Parents should utilize the Parent Center on the School Home Page. Teachers and Administrators can quickly notify you with school updates. Parents are expected to inform

their (the school secretary) student's teacher of any changes to contact information. Teachers will ensure these changes are updated in JCampus.

- Parents will attend a mandatory orientation prior to the student(s) being enrolled in TCA. Orientation will help acclimate both the parents and students to the learning platform, virtual environment, procedures, and expectations.
- **Elementary** parents should understand students will need a Learning Coach (parent or designee), a person providing significant guidance and support to the child.
- All students with Significant Disabilities (PK-12), will need a Learning Coach.

To ensure a successful and effective experience for all students and teachers it will be imperative that you, as the parent or guardian monitor your child's behavior while class is in session. We ask that parents:

- **Not be overly engaged in the instruction and constantly interrupting the teacher during instruction (asking questions on the behalf of the student) allow the student the opportunity to ask the questions**
- **Do not visibly complete work for your child**
- **Minimize background noise which prevents students from maintaining concentration (television, other siblings, profanity, etc.)**
- **Ensure the appropriate dress for screen time (students should not log in wearing underclothes, pajamas, etc.)**
- **Ensure the proper setting for screen time (students should not log in while in bed or eating)**

Discussing the Behavioral Expectations, Code of Conduct, and Acceptable Use Guidelines with your child(ren) is necessary to ensure that he/she is aware of the requirements set forth. It is also important that he/she understands the consequences for those who **CHOOSE** not to adhere to the expectations.

Video Conferencing Support for Families

BEFORE Video Conferencing

Take Some Time to familiarize yourself with Google Meet and Google Classroom

- Before allowing your child to connect, make sure you understand the purpose of the meeting.
- Reach out directly to the teacher if anything is unclear.
- Participate in the first video conference to support your child's unique learning needs.

Give Consent

- You will be asked to allow your child to participate.
- The teacher may be checking in with the class to see how they are doing and/or providing instruction.
- You may choose to turn the camera off on the student's device if you are uncomfortable. Your child will still see the teacher video and hear the conversation.
- Students should not sign-up for any video conference account without parent consent.

Check the Time and Date of the Virtual Lesson

- Check the Newsletter or Week at a Glance posted on the Teacher's webpage or Google Classroom.
- Message the teacher if you miss a virtual session. The teacher may provide recordings or make-up materials. (Please be cautious of missed days.)

Dress Appropriately

- Follow the District/School Dress Code. This includes any family members that may be in the room during the video conference.
- Ensure the background area is acceptable for video conferencing

Check Technology Ahead of Time

- Check the audio to make sure your speakers are enabled.
- Check the microphone when you get to Google Meet

Choose a Quiet Area

- Try to find a place to set up the device where it is quiet with few distractions so your child can engage in the conference.
- Try to keep siblings and pets away from the conference.

Check the Lighting

- Make sure your child has adequate lighting so the teacher and classmates can see them.
- A window or other light in the background may make viewing the video conference difficult.

Check Camera Framing and Background

- Make sure that your child's face and shoulders are centered in the frame of the camera.
- Make sure whatever is behind you, and visible to the camera, is simple and appropriate.

NOTE: In the event there is a power outage (loss internet connection) we ask that you pause briefly and resume to check for reconnection). However, if the outage lasts longer than two hours during the school day, the minutes missed will be recovered during the following Wednesday. The homeschool will alert students of the class start times prior to the rescheduled class.

DURING Video Conferencing

Be Ready for the Video Conference

- Google Meet may ask you to do a few things after you click on the “join link”. Teams will prompt you to either download a desktop program or connect by browser. Use the browser option, if possible.
- If Google Meet asks to allow the microphone and camera, click on allow.
- You may be sent to the waiting room; it’s ok, the teacher will allow you to enter the meeting shortly. You can check the microphone and sound while in the waiting room.

Troubleshoot Technology

- You may have some technology difficulties. Check the settings on the video conference interface. The video and microphone icons usually have settings.
- Close programs, apps, or browser windows that are unnecessary during the meeting.
- Also, use the chat function to communicate to the teacher(s)/classmates. You may be able to get help from the chat.

Help your Child Listen for Purpose and Expectations

- Your child will be muted when entering the room. This means that nobody will be talking except the teacher.
- The teacher will talk about the expectations and functions of the video conference tool. It will be awesome! Please help your child with the expectations and how to use the tools.
- Review the many benefits of being a good digital citizen.

Use the Camera

- Show your child where the camera is on the device.
- If they get a chance to talk, encourage them to look into the camera, speak clearly, and with good volume.

Follow Directions

- It is important that all participants follow teacher directions to avoid distractions.
- Sometimes children need to be encouraged to pay attention. They should be reminded that they will only have a short time to engage with the teacher and classmates.

Say Good-Bye

- The teacher will end the video conference. This will close the video conference window.
- Make sure that your child leaves the Google Meet meeting space, just as you would ensure they leave an unsupervised school setting.

AFTER Video Conferencing

Follow-Up

- The teacher may follow up a virtual class session with a survey or instructional materials.
- Make sure your child understands the purpose of all assignments and materials posted.
- Be sure to clarify how to access all websites or instructional materials. Connect with the teacher directly if you have feedback, questions or need clarification.
