My check below indicates my decision regarding Summer Learning Activities.

_____ I would like for my child to attend Summer Learning Activities

_____ I would not like for my child to attend Summer Learning Activities. I realize that not encouraging my child to attend Summer Learning will reduce his/her chance of rigorous enrichment and improvement on skills he/her might have missed during the COVID 19 crisis. I also understand that not attending Summer Learning may result in my child not being ready to fully assess on-level instructional material when school resumes in the fall.

Please check all activities you would like your child to participate in:
